RE: 2012 Preliminary County Budget

Attached is an incomplete accumulation of Department requests and/or my estimates for the 2012 Stevens County Budget. Many of the missing funds will be presenting their requests at a later date, when the information is better developed and more of the unknowns are clarified.

In General Government I estimated wages at full-time employment with no cost-of-living increase. The wages do include any expected matrix move. At this time I do not have any estimated property values or revenues. Many items are a roll forward of 2011.

I would urge you to become familiar with the departments and the numbers, decide on what you would like to hear about from the Departments and plan your time accordingly. I would encourage you to try and complete the budget early in December if possible.

My concerns about this budget year are the loss of federal funding in the Sheriff's Department, the shift to annual property valuations, the stillness of the local economy and the uncompleted labor contract situations. While we seem to be surviving in our current 2011 budget, we are also working with some severe limitations that may need to continue long than originally thought or hoped.

Please let me know how you would like to proceed through this process this year.
